

I'm not robot!

Congratulations on unlocking the Known Kingdom, the 15th kingdom of Peaks of Time. Here you will find a complete walk through the whole kingdom from beginning to end to complete this kingdom as quickly as possible Recommended Hero Levels: 240You can be able to clean all the Golden Chest in the Contoured Kingdom with a 2x Level 240 Heroes leading your team, but you will never be able to beat the boss fights unless you have a full team of Level 240 heroes. If you want the dust you can still follow this guide until you get to the boss's fights in the last steps. But enough of that now and let's talk about the Contorted Kingdom itself. In reality the Contoured Kingdom is quite simple, the only special thing here is that there are portals that will bring you back to a certain point that you can activate. Those are jump doors and every portal will take you back to the last jump door you activated. This could get you stuck, but it's actually quite straight - and if you follow my step-by-step guide you don't need to think about it. So, without any other ado we're going to jump directly on the road, right? Step 1The beginning is quite straight. You need to go through the jump door and then to the island at the top where you will find 5 Gold Chetes you need to collect. After that you can use the portal in the center that will take you back to the initial jump door at the beginning. Easy booty, right? Step 2In the next section you will find the first enemies, as well as two options to continue. My recommendation is that you do not activate the jump door and go to the south exit. The reason is not that you get stuck if you go to the left, but you will need to face some tougher fields there before and go south will give you some relics more before you need to fight them - just an easier option in my opinion Important! Haha, I forgot... You can. .otseupus .otseupus rop ,selic;Af sauiqler arap sotnemapmac 4 sol Do not activate the jump door in the center Dÿ" Ę Step 3siga the road to the south and will end in another section with fields and a jump door (as can be seen in the image). Here will also fight against all camps, so activating the jump door. After that you go to the right where you will find another island with a camp and several golden chests. The camp there are a couple of higher levels that you have fought so far in the contorted kingdom, but in reality it should be able to overcome it (although you have no opportunity to hit the bosses more late). After having done that, use the portal to return to the jump door that you activated at the beginning of this step. Step 4 now that is back in the last jump door now you go up where you will find a more battlefield. After that you go to the right, but do not activate this jump door now, we will use the next time! This is important. Since it finished the camps quite very easy there and collect the gold chests but not activate the jump point. (It is not really a problem if you do it because we activate another just after that anyway? The next point where you have three options. In first place to activate the jump door in the middle! Then you can go on the #1 path and fight against the fields Allā, collect the golden chests and use the telepuerto back. Next, follow the way #2 and also clean all the fields and collect the golden chests and the telepuerto back. When you have done this you can walk to the way #3 to leave this section with which you have ended now Dÿ" Ę Step 6 Now you will see the chief's first fight with the enemies of level 310. This fight requires that you have a complete level 240 team. Take JGE A to teleport back to JG 1 and cross the recipient bridge formed. 4.) jump JG 2 (Note: If you approach the collapse bridge to the right of 2, it is despawn and you will have to start again) and go down to jg 3. 5.) activate jg 3 and cross the bridge to jge b. the bridge will collapse and reappear to the top left of jg 3. 6.) take the jge b and cross the newly formed bridge. From here, head to right, jump out jg 4, and activate jg 5. (optional: get the treasure by jge c and the teleport back to jg 5.) 7.) head to jge d. bridge joto before jge d crashes and reappears to the top right of jg 2. 8.) take the jge d to return to the top right island. activate the jg 7, get the treasure in jge f, and then take the jge f to teleport back to jg 7. credit to u/Dyalar in reddit credit to u/Wan-chan in reddit the contorted kingdom (peaks of time 15) is a bit confusing for most players in the first attempt, contains a lot of bridges and teleported, be careful with the map below to get all the bounty chests! oted you want to connect different parts of the map using those helpers to access the entire map. The crystal breasts are blocked by high-level enemies so you want a decent power to defeat them. I can barely defeat them with the 220 ascended team, the bright side is that you can pick up most of the golden breasts easily. Since you've spent all the previous stages of peaks of time, you can get all 34 gold breasts with almost zero effort. The guide of maps of realm contorted the upper island is only accessed through the reopening bridge (located at the top left of the jump door 2). You need to follow a specific path to enter the upper island: fight the first enemy and then activate the jump gate 1, go to the entrance of the otlas otlas ed atreup al a seugel on .odaerc @Áicer etneup led amieuc rop rassap .1 otlas ed atreup al a atleuv ed rajainv ogeul A otlas ed atreup al ed adartne al a rasseL .1 otlas ed atreup al ed ojaded odneicaráer ogeul jÁrecheràer etneup IE .A otlas ed it is. Keep in mind that if you go to the right side of Salto 2 door, the right bridge will disappear and have to start over. Go to Jump Gate 3 defeating enemies. Activate Salto 3, reach the entrance of the jump door B. A new bridge will appear in the upper left of the Salto Puerta 3. Take the entrance of the jump door B and pass over the bridge Formed. Tell yourself to the right of the map, jump the door 4, activate the jump door 5. You can also get the treasure by Jump Gate C and then teleport Back to Jump Gate 5. Go to the entrance of the jump door D . The bridge next to the entrance of the jump door of will then disappear in the upper right of the jump door 2. Go to the entrance of the jump door D to return to the jump door 5. Tell yourself to The right towards the entrance of Jump Gate and Island and will say to the left side towards the island Jump Gate 2. Cross the recipient bridge created to enter the upper island. Trigger La Puerta de Salto 7 and you can get the Treasury at the entrance of the Gate of Salum
